

An extra activity

Hello students, I hope you're doing ok!

Down below you have a text, it is about a young surfer, whom you have probably heard about, so what I want from you is to read the text, watch the video and you will send me your reply on it, what you have understood the text is about? How does **Caroline** feel about the coronavirus and how it affects her sport career?

I want to see your viewpoint on this?

USA Olympic surfer Caroline Marks avoids coronavirus lockdown, focuses on graduation, Tokyo Games

What is she focusing on now when she is not being able to compete?

You will translate this part into Croatian and write your perception:

Her surfing abilities have taken her to the top of her class. Last year, the 5-foot-5 dynamo posted two victories and was a pillar of consistency, unleashing her powerful backhand maneuvers to finish fifth or better in eight of the 10 WSL championship tour events. She officially collected \$409,200 but savors the memories and dreams rather than material items.

What does 'Biding time' mean, explain into English!

Also, go through the text and videos and tell me what Grammatical tenses she had been using the most?

Thank you very much! Take care!
